FYI, some recent photos submitted by ODEQ of a new waste area discovered in the woods behind the Church.

Please note ODEQ's comment "Fox 23 (Tulsa) ran a story about this area earlier this month (December)."

(There is a 12/8/2015 Fox 23 news clip with the title "Investigator with Erin Brockovich visits Bristow with Fox 23". The news text says "Fox 23 tromped through the woods behind the old Assembly of God church and found black stuff that wasn't mud or dirt"

Subject: Waste area at Wilcox (Lorraine side)

Bart,

On 12/18/2014 I was in Bristow to perform my quarterly sampling of the residential wells at Wilcox. While I was out there I took some photos of the "new" waste area that was discovered as a result of the electrical easement clearing that runs north-south through church property. Fox 23 (Tulsa) ran a story about this area earlier this month.

Attached is a map with the approximate location and some photos of the waste.

Thank you

Todd Downham
